

Student of the Month – December 2016 South Area

Tanner Temples, Welding II Marion County Career and Technical Center

Instructor's Name: Robert Boone
Current GPA: 3.9
Attendance: Perfect

Tanner is the type of student that every program is longing for. He only has one speed and that's wide open. While other students are attempting to complete a T-Joint, Tanner has usually completed three T-Joints. Tanner is a top welder and he is also a very good mechanic. He earned the top score on the CPAS test last year and maintains a 3.9 grade point average. Tanner works well with others and is usually found helping other students who may not be as advanced. Tanner is well disciplined and never misses a day of school.

Tanner will be competing in our welding competition this year held at Pearl River Community College. Tanner's goal is to graduate from high school and attend Pearl River Community College and major in welding. Tanner would like to find employment with the pipeline union and travel throughout USA.
