

## Student of the Month – November 2016 South Area

### **Kayelin Sue Seymour, Welding Jackson County Technology Center**

Instructor's Name:	Paul Heffner
Current GPA:	3.2
Attendance:	Excellent

Kayelin Seymour is a third-year welding student at the Jackson County Technology Center. She has a wonderful attitude and sets a great example for her peers. Kayelin has helped recruit students for the program and SkillsUSA student organization. As a second-year student, she entered the Welding sculpture contest at the state level for SkillsUSA. Kayelin's sculpture had a theme of "Predator versus Prey". Her participation and experience of SkillsUSA sparked an interest in learning/doing more. Kayelin is currently working on a "911 theme" for her sculpture to enter in this year's events at SkillsUSA.

Kayelin's plans after high school are to attend MS Gulf Coast Community College and major in Business. After earning her associates degree, she will further her education at a four-year college. Kayelin's dream is to own her own National Motor Cross Track to give back to the youth of her community.
