

Career and Technical Education

Student of the Month

DECEMBER 2017

**STUDENT OF THE MONTH
NORTH AREA**

**Amauri Washington – Metal Fabrication
Amory Career and Technical Center**

INSTRUCTOR'S NAME: Robert Smith

**CURRENT GRADE: 2.6
ATTENDANCE: Perfect**

Amauri Washington, a metal fabrication student at Amory Career and Technical Center, is being honored by the Mississippi Construction Education Foundation as student of the month for the state's northern region.

Admired for his positive attitude toward his peers and teachers, Washington inspired his 2016 Opening and Closing Team to a third-place finish at the SkillsUSA regional competition. He is now preparing to compete in the CNC milling or turning technology event with hopes of advancing to the state competition in the spring.

As treasurer of the Amory Chapter of SkillsUSA, Washington is NCCER certified with career planning and assessment scores that place him among the top 3 metal fabrication students in Mississippi.

After graduation, Washington plans to study precision machining and manufacturing technology at Itawamba Community College.
